**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:**

**(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.**

- 2. Claims 15-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over anyone of Albert, McDermott et al., Bastioli et al or JP-B-48001500.**

- 3. Patentees all disclose a polymeric foam material a plasticizer and a dissolution aid and an active ingredient which is stable when in contact with air and instability upon contact with water. In view of the breadth of the terms in claim 15 the broadest claim in the case they read on the ingredients used in the references.**

- 4. Albert discloses a foam made primarily with polyvinyl alcohol which performs in the manner called for in the claims. The foam composition of both the Bastioli et al (primarily of water soluble**

**polysaccharides containing a plasticizer) and the Japanese patent (primarily containing polyvinyl alcohol) would also be stable in air inherently unstable in water. It is also considered that the foams of th McDermott et al reference which are primarily made of polyvinyl alcohol would also be stable in air and unstable in contact with water because of intended use of the foam.**

**5. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are ummarized as follows:**

- 1. Determining the scope and contents of the prior art.**
- 2. Ascertaining the differences between the prior art and the claims at issue.**
- 3. Resolving the level of ordinary skill in the pertinent art.**
- 4. Considering objective evidence present in the application indicating obviousness or nonobviousness.**

***Claim Rejections - 35 USC § 112***

**6. The following is a quotation of the second paragraph of 35 U.S.C. 112:**

**The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.**

**7. Claims 15-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.**

**8. The terms "plasticizer", "dissolution aid" and "active ingredient" are indefinite and too broad in that the terms read on the addition of an ingredient to the composition to satisfy the use of all three terms.**
